◆ **2006 International Building Code (Temporary Rule)**

In 2006, the Board promulgated a rule adopting the 2006 International Building Code (IBC) and International Residential Code (IRC). The Building Coalition requested the withdrawal of the proposed rule to allow for a legislative approach; which never materialized. The House rejected the proposed rule, the Senate took no action and the rule became effective upon adjournment.

In 2007, House Bill 137 was introduced and passed; adopting the 2006 International Energy Conservation Code with an effective date of January 1, 2008. In the process, the 2003 IBC and IRC were inadvertently recodified. The rule became effective in April, however; was superseded in January by the legislation.

Under the authority of Idaho Code 39-4107, the Board advised to adopt a new temporary/proposed rule to reaffirm the 2006 codes are in effect until acted upon at the 2009 Legislative session.

**MOTION:** Doug Brown made a motion to proceed with the temporary/proposed rule; adopting and incorporating, by reference, the 2006 editions of the International Building Code, International Residential Code and International Existing Building Code. Ron Whitney seconded. All in favor, motion carried.
